📁 Portfolio

Profile

Java backend developer with hands-on experience building production-grade REST APIs using Spring Boot, Spring Security, and JPA/Hibernate. Designed and implemented a secure cab-booking system with JWT authentication and RBAC, and a microservices networking platform using Spring Cloud Gateway, and Docker. Certified in Spring Boot Fundamentals and Advanced. MCA graduate seeking an entry-level backend role to contribute and grow within a structured engineering team.

Projects

Cab-booking-backend-springboot

Jun 2025

- Developed a secure cab booking backend using Spring Boot and PostgreSQL.
- Implemented JWT-based authentication and authorization using Spring Security.
- Built role-based access control for Customer, Driver, and Admin functionalities.
- Integrated OSM routing service for route calculation, distance estimation, and fare calculation.
- Developed complete ride lifecycle management from ride request to completion and payment processing.
- Designed relational database schema and optimized queries for ride and user operations.
- Implemented centralized exception handling using @ControllerAdvice.
- Documented APIs using Swagger/OpenAPI.

Jobseekers Backend Networking Platform

Oct 2025

- Developed a microservices-based networking platform inspired by professional networking applications.
- Built User Service, Post Service, Connection Service, and Notification Service.
- Implemented API Gateway using Spring Cloud Gateway for centralized routing and JWT validation.
- Configured Eureka Server for service discovery and registration.
- Used OpenFeign for inter-service communication.
- Implemented user registration, authentication, profile management, post creation, likes, and connection request workflows.
- Containerized services using Docker and orchestrated deployment using Docker Compose.
- Implemented asynchronous notification processing between services.

Certifications

- **Spring Boot Fundamentals:** Coding Shuttle (Jun–Sep 2024) — Spring MVC, REST APIs, JPA/Hibernate, Pagination, Validation, Exception Handling, Spring Security, JWT Authentication, Swagger/OpenAPI. [Certificate](#)
- **Spring Boot Advanced:** Coding Shuttle (Oct 2025–Feb 2026): Microservices Architecture, Eureka Server, Spring Cloud Gateway, OpenFeign, Docker, Docker Compose [Certificate](#)
- **LeetCode 50 Days Badge 2025:** Acheived Badge of Solving problems consistently for 50+ days in 2025 [Certificate](#)
- **GFG 160 days of Problem Solving:** Completed 22-week intensive DSA course by GeeksforGeeks (Nov 2024 – Mar 2025) [Certificate](#)

Professional Experience

Thought Applied Creations

Apr 2022 – Sep 2022

Intern Developer

Developed web-based modules using J2SE and J2EE technologies. Built backend functionality using Servlets and JSP for request handling and dynamic page rendering. Used JDBC for database connectivity and performed CRUD operations with SQL. Collaborated on structured development following MVC pattern.

Technical Skills

Languages: Java, HTML, SQL, CSS

Frameworks: Spring Boot, Spring Security, Hibernate JPA

Platforms: Swagger, maven, Postman, Aws Free Tier (EC2)

Tools: Git, GitHub, VS Code, IntelliJ IDEA

Architecture: Microservices, Rest Api, Docker

Databases: MySql, PostgreSQL

Education

Raipur Institute of Technology (Affiliated to CSVTU)

Aug 2020 – Jul 2022

Master of Computer Application (CGPA: 7.86)

Raipur, Chhattisgarh

Pragati College (Affiliated to PTRSU)

Aug 2016 – Jul 2019

Bachelor of Science (Computer Science)

Raipur, Chhattisgarh
